#### Kvist Industries at the Cabinetmaker's Autumn Exhibition 2008

As a leading producer Kvist Industries have been invited to this year's Cabinetmaker's Exhibition (SE-Design), an association under the protection of His Royal Highness Prince Frederik of Denmark. Kvist Industries have had the privilege to cooperate with the designer Lovorika Banovic on

this year's theme FIFTY FIFTY.

The aim of the Autumn Exhibition is to develop and display once a year the new and experimental kinds of furniture that unite the practical with high-end craftsmanship and artistic quality. The association works as a laboratory for innovating types of furniture and

concepts for the future.

Kvist Industries are proud of the product that has been developed and would like to encourage everybody to visit the exhibition at Rundetårn from 22 November 2008 to 4 January 2009.

#### Clients Develop New Products during the Current Crisis

At Kvist Industries we also feel the current slump in the market and have recently reduced our expectations for the financial year. Falling demand for high-end designer furniture has forced us to reduce capacity at Kvist's, including some

layoffs.

However, Kvist Industries have noted an increasing interest for product development projects, an indication that the market is slowly getting ready for the upturn.
